"PrimeGlobal firms know accounting. Of course they do.

But they also know business. Your business. And, most important, they know the people who can help you get your business done around the world – anytime, anywhere, any way.

Smart business, personalized. That's the power of PrimeGlobal".

Núñez Dubón y Asociados, a professional organization founded in 1995, is a member firm of PrimeGlobal, a worldwide association of independent accounting firms and business advisors.

PrimeGlobal is among the strongest associations of independent accounting firms in the world, providing a wide range of tools and resources to help member firms furnish superior accounting, auditing, tax and management services to clients around the globe.

PrimeGlobal's independent members are typically regional, full-service public accounting and management consulting firms. These highly successful independent firms, with multiple offices in major metropolitan areas, provide technical assistance in traditional accounting and auditing, tax services, and specialized services such as privatization support, fiscal management support, streamlining accounting systems, litigation support, strategic planning, business valuations, information technology consulting, system planning, and law firm services.

Formed from a merger of three associations in 2011, the association has grown to over 350 firms with a combined more than 800 offices in 90 countries around the globe. In 2012, member firms had a combined total of over 2,200 partners and over 17,000 personnel generating approximately US\$2.0 billion in annual revenues.

For more information about PrimeGlobal as a membership association, and the services it offers its independent member firms and their clients, visit the PrimeGlobal website at www.primeglobal.net
